

SENATOR REID: Working for Nevada's Seniors

SENIORS

Senator Reid has always fought for Nevada's seniors, and his record demonstrates his commitment to protecting and strengthening Social Security, Medicare, and disability assistance. Senator Reid successfully blocked efforts to make deep cuts in benefits. He successfully took the lead to close the prescription drug "donut hole" for seniors. And with the passage of the Affordable Care Act, he led the effort to protect and strengthen Medicare for future generations.

Highlights

- ★ Senator Reid is one of the Senate's strongest advocates for protecting Social Security from privatization and deep benefit cuts. He opposes efforts to weaken Social Security or threaten the retirement security of the many seniors in Nevada and around the country.
- ★ Senator Reid led efforts to pass the landmark health insurance reform law that will close the prescription drug "Donut Hole." As a result, Nevadans saved almost \$56 million in prescription drug costs since the law passed in 2010. These savings for seniors will increase in the coming years and, by 2020, the law will close the donut hole completely.
- ★ Senator Reid consistently fights to ensure doctors who see Medicare patients are fairly compensated. He has long worked to ensure stable and fair compensation for Nevada providers who serve Medicare patients. And he has led efforts each year to stave off additional cuts and continues to work for a comprehensive solution to physician payment in Medicare.
